“Best eQMS I have ever
used...”

This is the easiest eQMS I have used in
the 20 years I have been in the Medical
Device Industry. *It is simple, intuitive
and easy to use...* We are successfully
implementing a Quality Culture.

- Director of Regulatory Affairs
& Quality Assurance

“Modern QMS Software and Outstanding Customer Service.”

Building Successful Relationships

-
- Selecting a CM and key suppliers early in development
 - Delineate roles and responsibilities
 - Communication and Relationship

Design Transfer Must Start **Early**

Risk Mitigation

- Identify transfer risks early
- Tribal knowledge
- Material
- Process
- Change

DFx Optimization

-
- Alignment between the design of product and production processes
 - Manufacturability
 - Testability
 - Serviceability
 - Sustainability

Supply Chain Strategy

costs

- Bill of Material Management
- Scalability
- Existing supply chain
- Region
- Agreements
- Shelf life

Know Your Strengths

- What do you want to keep in house?
- What are the strengths of your partners?

Key Takeaways

-
- Building successful relationships throughout design process
 - Identify and mitigate risks early
 - DFX optimization
 - Creating a supply chain strategy
 - Identify key strengths
