Sara Little
Senior Consultant, BMTA

Boston MedTech Advisors

Founded in 2004, BMTA worked with more than 350 medical technologies and life sciences companies. BMTA supports clients to commercialize new products and services and increase their market adoption by addressing their unique and inter-dependent regulatory, clinical, reimbursement, marketing and business development requirements

Avania

Avania is a global full-service contract research organization focused on the management of clinical studies for medical devices, IVDs, biologics, and device-drug combination products internationally. Avania brings knowledgeable experts together to form a unique CRO that can advance the research of medical devices, novel technology, and combination products. When you partner with Avania, you become part of a company legacy built on more than 30 years of experience.
